

Grand Designs Live London 2011 showed the world over 500 exhibitors covering interiors, gardens, home improvements, self-build, renovations, technology and shopping there really was something for everyone.

Innovations:

#1 Liftbed - a great way to transform your living space. Below you can see how it works:

{youtube}VIGrBW9XnFw{/youtube}

At the push of a button Liftbed glides into the ceiling, creating your bedroom into a living room.  
/Source: [www.liftbed.com/](http://www.liftbed.com/)

#2 Long Form Library - Not only is the act of immersing oneself in a task now beautiful to perform, but also, beautiful to observe. The arts of knowledge personified. All designed and made by hand, in Manchester England. /Source: [www.ifsodoso.com/](http://www.ifsodoso.com/)

and by the way, the design is by the same person who designed the table. The design is by the same person who designed the table.
